Sir:

Applicants have previously filed on December 20, 2001 a sequence listing and accompanying computer readable diskette in the parent application number 09/927,315.

Applicants request the use of the previously filed diskette containing the sequence information in computer readable form in the parent application in lieu of providing a diskette herewith. The diskette submitted to the USPTO in the parent application on December 20, 2001 is the only computer readable form filed. The parent application information data is as follows:

Applicants: Charles S. Zuker et al.
Serial No.: 09/927,315
Filed: August 10, 2001
Title Mammalian Sweet Taste Receptors

As required by 1.821(f), applicants state that the content of the above-identified computer readable diskette submitted in the parent application is the same as the content of the hard copy of the Sequence Listing (pp. 1-45) submitted to the USPTO in the parent application and herewith in the accompanying Continuation Application.

Respectfully submitted,
